# PharmGuard® Anesthesia Software Service

Anesthesiologists and their patients can benefit from syringe infusion pumps that are not only simple and smart, but also have the added safety and convenience of a customized drug library loaded into the pumps.

## Use our resources

PharmGuard® anesthesia software service makes it easy and convenient to get your customized drug library on your Medfusion® 3500 syringe pumps. It's simple, safe *and* smart.

## Simple

- Three button presses to start an infusion

## Safe

- Customizable drug library helps reduce medication errors

## Smart

- Meets the Anesthesia Patient Safety Foundation recommendation for improving medication safety in the operating room –

*Infusions should be delivered by an electronically-controlled smart device containing a drug library.<sup>1</sup>*

## Easy Implementation

# 1

Your team fills out a template to create a library with parameters for up to 12 drugs / 2 profiles

# 2

Our team enters the library you created into your Medfusion® 3500 pumps

# 3

Medfusion® 3500 pumps are shipped to you and ready to use
