

the power of
PORT-A-CATH[®]
is clear

we've got it...
and now you can
actually **SEE** it

A clearly visible CT identifier...

No more guesswork. No more wondering.
Our CT identifier is big, bold and virtually unmistakable.
Compare it to the others...the difference is clear.

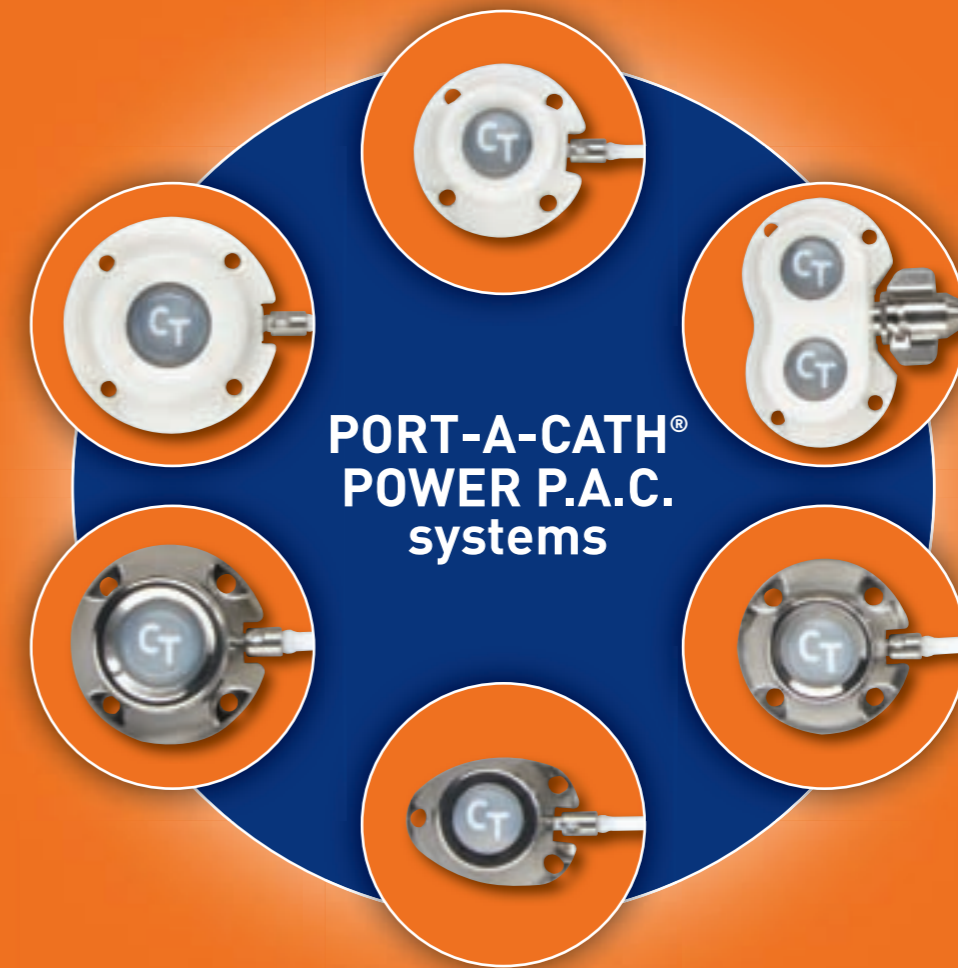

The easy-to-see CT identifier is on all
PORT-A-CATH® POWER P.A.C. systems.
Every single one...

And the mark is as durable as the port itself.
The radiopaque CT, embedded into the port septum,
will withstand thousands of needlesticks
and still remain visible.

More Power. More Choice. More Clear.

What more could you ask from a power port?
Now a clearly visible CT identifier plus the high quality features
you've come to expect from Smiths Medical.

> Easy to implant and explant > Lightweight > Easy to maintain

To find out more about the CT identifier
