## aerFree™ Airway Management System (AMS)

Because You Only  
Have Two Hands

# RESOLVING AIRWAY ISSUES STARTS WITH AVOIDING THEM

## aerFree™ AMS

### ADVANCING PATIENT SAFETY THROUGH NON-INVASIVE AIRWAY SUPPORT

aer+™ Technology is the application of negative pressure to a patient's neck above the upper airway. It simply and safely supports the patency of the upper airway during medical and surgical procedures requiring mild to moderate sedation.

- Hands-free chin lift: Decreases airway interventions that can disrupt workflow
- May save clinicians time
- Non-invasive external airway support: May eliminate invasive and difficult interventions
- Designed for mild to moderate sedation
- Easy to use: Applied to patient in seconds
- Simple: Minimal training required and can be used by all experience levels of healthcare personnel
- Effective: Reduces the number of apnea events and respiratory impairment events<sup>1</sup>
- May improve patient comfort during sedation

### ORDERING INFORMATION

#### aerFree™ Airway Management System

Product Code	Description	Units per case
30-5001	aerFree™ Airway Management System with tubing	24
