

Notice something different?

THE HOTLINE® FLUID WARMERS AT THIS FACILITY HAVE BEEN CONVERTED TO THE LATEST TECHNOLOGY: **HOTLINE® 3**

You can now connect and disconnect the disposable set from the hardware with a single hand.

The new disposable audibly clicks into the new mounting block, so you know it's securely in place.

Helps prevent the recirculating fluid from escaping, allowing you to transfer the disposable along with your patient to continue warming in multiple rooms.
