PORTEX® ACAPELLA®

CHOICE

FAST AND EFFECTIVE
acapella® choice Vibratory PEP Therapy System combines the benefits of both PEP therapy and airway vibrations to mobilize pulmonary secretions. The therapy it provides is better tolerated than chest physiotherapy (CPT) and can be delivered in about half the time.¹

TRUSTED AND PROVEN
acapella® choice has been clinically proven as a device with fewer exacerbations of disease and fewer re-admissions.

EASY TO CLEAN
acapella® choice is very easy to clean. The product need not be autoclaved, simply wash with warm water and standard dishwashing detergent. This means that the patient can gain the confidence of using the product in the hospital and continue to use the same product when they get home, helping to assist with the continuation of use and patient recovery.

EASY TO USE
acapella® choice is so easy to use, which means there is less training time required in hospital, increasing patient confidence in using the product.

MOBILIZATION ON THE MOVE
acapella® choice is a compact device that requires no wires or power. It can therefore be used by the patient while they are on the move.
Mobilizing secretions in hospital, at home, anywhere.

acapella® choice is the easy to clean, portable PEP Therapy device from Smiths Medical, helping to assist with continuity of care from hospital to home.
